

Baic energy storage power

What is BAIC bluepark new energy technology?

On the evening of March 11th, BAIC BluePark New Energy Technology announced that to ensure a stable supply of power batteries and support industrial development, the company plans to establish a platform company in partnership with BAIC Investment, Beijing Hainachuan.

Will BAIC invest in a battery cell manufacturing plant in Beijing?

After establishing the joint venture company, it will invest in constructing an intelligent battery cell manufacturing plant in Beijing. According to the announcement, BAIC Investment and Beijing Hainachuan are related parties of BAIC BluePark, constituting a related party joint investment transaction.

What does BAIC bluepark do?

The proposed joint venture company's scope of business includes developing, producing, and selling lithium-ion batteries, power batteries, and energy storage batteries, as well as providing related after-sales and technical consulting services. The platform company will contribute 39%, and BAIC BluePark will indirectly contribute 5%.
