

Best power solution Cabo Verde

Does Cape Verde have solar power?

In 2012 Cape Verde had an installed electricity generation capacity of around 300 MW, of which about 24% from wind power plants and 3% from photovoltaic stations. While solar power has an enormous potential as a source of renewable energy, natural conditions in Cape Verde are one of the best in the world for the production on wind energy.

How has Cabo Verde changed Cape Verde's energy supply?

Cabo Verde has transformed Cape Verde's energy supply, offsetting diesel imports by around 15 million litres a year. In 2013, the first year Cabo Verde was fully operational, this resulted in approximately US\$1.5 million in savings for Electra S.A.R.L.

Is Cape Verde a viable alternative to fossil fuels?

Solid waste can also represent an adequate option while ocean and geothermic energy are being tested, with uncertainties remaining as to their efficiency. Cape Verde has an estimated potential of 2,600 MW of renewable energy, and more than 650 MW have been studied in concrete projects, which have lower production costs than fossil fuels.

Why is Cabo Verde a good energy source?

The power produced by Cabo Verde is more reliable, cleaner and cheaper than imported fossil fuels: inspiring further development of Cape Verde's island grids so that their ever increasing demand for power can be met through renewables.

How many wind turbines are there in Cape Verde?

The project constructed 30 wind turbines across four of Cape Verde's islands (Boa Vista, São Vicente, Sal and Santiago) and established Cabo Verde SA as the first Public Private Partnership (PPP) to deliver commercial scale wind power in sub-Saharan Africa.

What is the EU - Cape Verde special partnership?

The EU - Cape Verde Special Partnership was approved by the Council at the end of 2007 and is now in its implementation phase on the six priority sectors: governance, security, information society, regional integration, normative and technical convergence towards EU standards and fight against poverty.
