

New delhi energy storage subsidy policy document

What is the capital subsidy for solar projects in Delhi?

State Capital Subsidy: Under the new Delhi Solar Policy, the Capital subsidy for all Solar projects for residential customers shall be given at the rate of Rs. 2,000/- per KW upto a maximum of Rs. 10,000/- per consumer. The subsidy will be passed through their first electricity bill post-commissioning of the RTS system.

Why should India invest in energy storage systems?

6.11.1. India's surge in energy demand and rapid shift towards renewable energy sources offers opportunities for emerging Energy Storage System (ESS) technologies. Domestic innovation and manufacturing of ESS technologies can stimulate job creation, economic growth, and position India as a global leader in sustainable and low-carbon energy systems.

How can the government support research and development in energy storage technologies?

To address the need for long-term research and development in energy storage technologies, collaboration between academia and industry will be necessary. The government may establish a Nodal Agency to coordinate R&D efforts in the field, and funding will be provided through this agency.

Are energy storage systems a part of a power system?

5.1.1. The Electricity (Amendment) Rules, 2022 provide that the Energy Storage Systems shall be considered as a part of the power system, as defined under clause (50) of section 2 of the Act. 5.1.2.

Who can use energy storage systems?

Lease and sale of ESS: Licensees, developers, owners, lessors, lessees, procurers, and intermediary procurers can all make use of ESS. Developers or owners of ESS have the option to sell or lease storage capacity for a specific period. 5. Existing Policy framework for promotion of Energy Storage Systems 5.1. Legal Status to ESS 5.1.1.

How SLDCs can benefit from firm power from storage?

5.14.2. As per these Guidelines, the firm power from storage can be utilized to balance renewable energy and provide round the clock (RTC) power to the buyers/DISCOMs, thereby facilitating the State Load Despatch Centres (SLDCs) in ensuring grid stability and security within their control jurisdiction.
