

Stacked solar container fan

<div class="df_qntext">What is a big air 400 CFM solar powered roof vent?

The BIG AIR 400 CFM Solar Powered Roof Vent is engineered to be installed on the roof of shipping containers. The vent comes with a 11 7/8 x 14 11/32 range hood filter (Bug Screen) In order to exhaust the full 400 CFM, 2 Big Air 45 Vents are required for air intake. As an Amazon Associate, we earn from qualifying purchases.

<div class="df_qntext">Can I use a bigair45 fan on a shipping container?

Disclaimer: To be used in conjunction with BigAir45 vents for HAZMAT storage so that there is adequate passive ventilation at times when the solar-powered fan is not in operation. Engineered to be installed anywhere on shipping container, van trailers & all wood construction building rooftops 10 W monocrystalline solar panel. No on or off switch!

<div class="df_qntext">What are the best skylights for shipping containers?

Bring in natural sunlight to any shipping container. Our Solar LightBlasters are very affordable tubular skylights. Our current product line fits shipping containers with 3.5" and now 6.5" ribs. Solar RoofBlaster(TM) is a solar-powered fan that helps exhaust your hot attic air out and saving you a lot of money in your energy costs.

<div class="df_qntext">Can you put a solar roofblaster on a Conex shipping container?

OVERSTOCK SALE ON WHITE 5W SOLAR ROOFBLASTERS! We have taken our very popular Solar RoofBlaster vent/fan unit and designed a special form-fitting flashing that will sit flush on top of a Conex shipping container! The new Solar RoofBlaster for Conex comes in three configurations: the original 3w panel, the Mega 5w panel, and the Mega Adjustable.

<div class="df_qntext">Can a 400 CFM fan be used in hazardous materials?

400 CFM provides a complete air exchange every 3 minutes in a 20 ft container and every 6 minutes in a 40 ft container under ideal conditions. Quiet Operation, Fully Assembled - No On or Off switch! In most jurisdictions, low voltage (12v) fans can be used in hazardous materials (HAZMAT) settings without the need for explosion-proof electrical.

<div class="df_qntext">Can a low voltage fan be used in hazardous materials?

In most jurisdictions, low voltage (12v) fans can be used in hazardous materials (HAZMAT) settings without the need for explosion-proof electrical. Disclaimer: To be used in conjunction with BigAir45 vents for HAZMAT storage so that there is adequate passive ventilation at times when the solar-powered fan is not in operation.
